

Vinyl Plank & Tile

CARE AND MAINTENANCE

Sweep, dust mop or vacuum regularly to remove surface grit and dust. Use a damp cloth or mop with a quality resilient vinyl floor cleaner to clean up dirt and footprints, (be careful to avoid using excessive moisture). All spills should be cleaned up immediately.

CAUTION: Planks are slippery when wet.

Use doormats at entrance ways to help protect the floor. Avoid using rubber-backed rugs, as they may stain or discolor the vinyl flooring. If you have an asphalt driveway, use a heavy-duty floor mat at your main door, as chemicals in asphalt can cause vinyl flooring to yellow.

Do not use a wet spray micro fiber mop. Never use wax, polish, vinegar, abrasive cleaners or scouring agents as they may dull or distort the finish.

High heels can damage floors. Use protective pads under all furniture. Use exterior doormats at all entrance ways to keep dirt and moisture from being tracked in. Avoid use of interior rubber, foam or plastic back mats as they may discolor the floor. To prevent slippage of area rugs use an approved latex rug underlay from a reputable manufacturer. Do not allow pets with unclipped nails to scratch or damage the floor.

Do not use steam cleaners in your care and maintenance.

Avoid exposure to direct sunlight for prolonged periods of time. Use drapes or blinds to minimize direct sunlight during peak sunlight hours.

It's a good idea to save a few planks in case of accidental damage. Planks can be replaced or repaired by a qualified professional.
